

**Editor's Comment:**

Book Name: Engineering Research: Perspectives on Recent Advances.

Manuscript number: 2024/BPR/3834

Book Chapter (Manuscript) Title: Investigation of fresh and hardened properties of self-compacting concrete using calcite and fly ash as supplementary cementitious materials.

The author responded to comments and observations to the extent that he considered it possible. I think the manuscript as a whole is scientifically correct. Language/English quality of the article is sufficient for scholarly communications. There are no ethical issues in this manuscript. There are no competing issues of interest in this manuscript. There is no plagiarism/

My editorial decision (at stage 3: Final evaluation by Editor/Associate editor/Chief editor): this manuscript can be published in the Book: Engineering Research: Perspectives on Recent Advances.
