

FINAL EVALUATION FORM 1.1

Book Name:	Scientific Research, New Technologies and Applications
Manuscript Number:	Ms_BPR_3199
Title of the Manuscript:	Federated Learning and Deep Learning: A New Frontier for Real-World Applications
Type of the Article	BOOK CHAPTER

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>This chapter contributes to a deeper understanding of how advanced machine learning techniques can be responsibly and effectively utilized in real-world scenarios.</p> <p>The abstract should contain: Background, objective, problem, methodology, brief findings, brief conclusion, and recommendations</p> <ul style="list-style-type: none"> - The title is too general, needs to be specific and map the problem and methodology - The abstract should contain: Background, objective, problem, methodology, brief findings, brief conclusion, and recommendations - Too many keywords - The introduction is ok - Results are not exist - Methodology is not exists - Discussion is very poor - Conclusion need more clarification - The LR is not enough - paper structure needs improvement - References are not updated and 10 are too little
