

[Review Form 2](#)

Book Name:	<a href="#">Recent Developments in Chemistry and Biochemistry Research</a>
Manuscript Number:	Ms_BPR_3472
Title of the Manuscript:	Dissociation Constant of N-(2-Acetamido)-Iminodiacetic Acid Monosodium (ADA) from (278.15 to 328.15) K
Type of the Article	Book Chapter

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	ADA is a zwitterion and less reactive with biological materials. So it is widely used in biochemical assays, cell culture techniques and in research in the fields of Pharmaceutical science. This work can add more information to researchers who work on biological systems, biochemical assays and related parameters.	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is suitable for the book chapter.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	comprehensive	
Are subsections and structure of the manuscript appropriate?	Sub-sections are appropriate to the manuscript	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	ADA is a zwitterion and less reactive with biological materials. So it is widely used in biochemical assays, cell culture techniques and in research in the fields of Pharmaceutical science. The Gary <i>et al</i> modified method used in this work is relatively accurate particularly in weakly acidic substances.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Most of the references are too old	
-		
Minor REVISION comments	English Language is good.	
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments		

**PART 2:**

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

**Reviewer Details:**

Name:	Manoj Kumar
Department, University & Country	Sir C. R.Reddy College of Pharmaceutical Sciences, Andhra University, India
