

Review Form3

Book Name:	Recent Developments in Chemistry and Biochemistry Research
Manuscript Number:	Ms_BPR_3943
Title of the Manuscript:	Synthesis and applications of xanthate esters
Type of the Article	Book chapter

PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The paper presents syntheses of some useful compounds in the development of some classes of substances. In my opinion, the introductory part should be reworded. In my experience, I have found that an explanatory introduction, in which to discuss the chosen routes in comparison with the classic ones, as well as detailing the use of new compounds are useful tools for underlining the progress and especially for understanding the novelty that the developed research brings. Of course it's a suggestion.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes/no/-	
Is the manuscript scientifically, correct? Please write here.	yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	yes	
Is the language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments	I suggested rewording the introductory part, because the experimental part is a compilation of the authors' previous work, so originality can emerge from the critical discussion of the previous work!	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Are there ethical issues in this manuscript?</u>	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
