

Review Form3

Book Name:	Current Research Progress in Physical Science
Manuscript Number:	Ms_BPR_4069
Title of the Manuscript:	Intensity dependent third order optical nonlinearity of zinc-tetraphenyl porphyrin ultrathin film in nano-second regime
Type of the Article	Book Chapter

PART 1: Comments

	Reviewer's comment	Author's Feedback(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimumof 3-4 sentences may be required for this part.	In the present work the author/authors have made a good attempt to investigate nonlinear optical properties using Z-scan technique in the field of optoelectronic materials. Some suggestions must have included in the manuscript to improve this work. 1. Purity percentage of the elements which use in the synthesis of this composition. 2. Give the more details about the substrate. 3. Mention the model of the instruments used for ultrasonic cleaning and vaccum coating unit. 4. Mention the institute where these instruments have? 5. Mention the model and place of the Z-scan instrument. 6. Give the formulas for calculating the effective absorption coefficient and nonlinear refractive index. 7. Mention the percentage error of the effective absorption coefficient and nonlinear refractive index.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	-	
Is the manuscript scientifically, correct? Please write here.	yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Need more references.	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
