

### Review Form 3

Book Name:	<a href="#">Contemporary Research and Perspectives in Biological Science</a>
Manuscript Number:	Ms_BPR_4075
Title of the Manuscript:	Investigations on Foliar Epidermal In Some Acanthaceae
Type of the Article	Book chapter

#### **PART 1: Comments**

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This is a very interesting subject especially as the acanthaceae are indoor plants despite their often very decorative inflorescences, is typical, but many are little known, and this manuscript completes the studies that have not been done.	
Is the title of the article suitable? (If not please suggest an alternative title)	It would be better to change the title because the word investigation is too much for the content. I suggest *Study of the characteristics of the leaf epidermis of certain Acanthaceae in India*	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is very short, I suggest enriching it by giving brief results for the stomatal index and the frequencies between species.	
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The authors are asked to do a good search to find other articles on acanthaceae from other countries so that they can make a good discussion of the manuscript.	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
<b>Optional/General</b> comments	See the manuscript	

#### **PART 2:**

	<u>Reviewer's comment</u>	<u>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</u>
<u>Are there ethical issues in this manuscript?</u>	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
