

[Review Form 3](#)

Book Name:	Contemporary Research and Perspectives in Biological Science
Manuscript Number:	Ms_BPR_4075
Title of the Manuscript:	Investigations on Foliar Epidermal In Some Acanthaceae
Type of the Article	Book chapter

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Is the manuscript scientifically, correct? Please write here.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :		
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments	Comments to Authors: 1. Methodology section is very poorly written even for cystolyth study, the authors did not mention the methodology. There is also no mention of methodology/ formulae for Stomatal Index and Trichome Index 2. Abstract and Discussion should be more constructive and arranged with a good focus on the importance of such study in pharmacognosy and morpho-taxonomy.	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
