

Review Form 3

Book Name:	Contemporary Research and Perspectives in Biological Science
Manuscript Number:	Ms_BPR_4095
Title of the Manuscript:	FLORAL AND REPRODUCTIVE PHENOLOGY OF ALOE VERA
Type of the Article	Book chapter

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript holds significant importance for the scientific community as it contributes detailed insights into the floral and reproductive phenology of <i>Aloe vera</i> , a plant renowned for its extensive medicinal and economic applications. By elucidating key aspects such as anthesis, pollination mechanisms, and fruit development, the study supports breeding programs aimed at enhancing <i>Aloe vera</i> 's productivity and utility. Additionally, the manuscript underscores the role of environmental factors like temperature and humidity in influencing reproductive traits, providing valuable data for cultivation practices. The findings can serve as a foundational reference for further research into improving the genetic diversity and agricultural viability of this species.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article is suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article is comprehensive	
Is the manuscript scientifically, correct? Please write here.	The manuscript scientifically is correct	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient and recent	
Is the language/English quality of the article suitable for scholarly communications?	The language/English quality of the article is suitable for scholarly communications	
Optional/General comments	Research materials should have the scientific name of the research sample identified. Where are the sample specimens stored?	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Are there ethical issues in this manuscript?</u>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
