

Editor's Comment:

I accept the manuscript for publication in the BP International.

Please, in the attachment you will find the decision.

Considering the reviewers comments and authors corrections, we can publish this manuscript. The reasons are as follows:

- 1- One reviewer gives comment such as "The work is informative and good for the readers".
- 2- One reviewer gives comment such as "This theory is good"
- 3- One reviewer gives comment such as "The author investigates the Starobinsky's formalism of stochastic inflation to a massless scalar field, which is minimally coupled to gravity and they studied the corresponding Fokker–Planck equation to obtain the analytical expressions for the stochastic expectation values"
- 4- Two reviewers give comment such as "Accept as it is"
- 5- Three reviewers give comment such as "Accept after minor revision"

According to the comments, the authors have corrected the manuscript carefully. Therefore, the manuscript has enough value for publication in the BP International.
