Manuscript Number:	Ms_BPR_ 3336.10
Title of the Manuscript:	Exploring the Influence of Intrinsic Motivation on Entrepreneurial Creativity and Growth in Manufacturing SMEs in eThekwini District Municipality, South Africa
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer’s comment	Author’s Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript is highly valuable to the scientific community as it explores the intersection of intrinsic motivation and entrepreneurial creativity within the context of manufacturing SMEs in eThekwini District Municipality, South Africa. By shedding light on how intrinsic motivation drives innovation and growth in SMEs, this research provides critical insights into fostering resilient and creative business practices in emerging economies. I appreciate this manuscript for its emphasis on intrinsic motivation, a relatively underexplored but vital factor in entrepreneurial success, and for its potential to inform policies that support SME development in similar socio-economic settings globally.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is comprehensive, No suggestion is required.	
Are subsections and structure of the manuscript appropriate?	Yes, all sections and sub sections are appropriate	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript demonstrates scientific robustness and technical soundness by employing a well-structured research design that aligns with its objectives, focusing on intrinsic motivation and its impact on entrepreneurial creativity and growth. The study’s methodology includes a rigorous sampling strategy, suitable data collection techniques, and advanced statistical analyses, which reinforce the reliability of its findings. Additionally, the authors apply relevant theoretical frameworks, ensuring that the study is well-grounded in existing literature while also contributing novel insights. The study’s findings are presented with clear, logical interpretations, enhancing their validity and relevance to both academia and industry.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Refereneces should be written in APA format	

Review Form 2

Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments	The authors have done an excellent job in presenting a scientifically rigorous and insightful study on the role of intrinsic motivation in SME growth. Their findings contribute significantly to understanding entrepreneurship dynamics within the eThekweni District Municipality.
