Manuscript Number:	Ms_BPR_3602
Title of the Manuscript:	Ten Years Post Bilateral TKR with LBA – Physiotherapy Can Help?
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This is a very important area to focus. Every year huge number of people suffer on this health issue. I personally liked this topic. But there are few areas/points I think need to be clarify/review.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title need to be review.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is too small. Few more important informations need to include.	
Are subsections and structure of the manuscript appropriate?	OK	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Study Treatment section need to review. All the treatment options specially all the exercises need to be clarify in detail, not just the names. Most importantly, who provided the intervention, that was not also mentioned.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	This was conducted and data was collected during January 2019 - December 2020. So all the references must be old.	

Review Form2
