Manuscript Number:	Ms_BPR_3639
Title of the Manuscript:	Therapeutic Effect of Combined Colon Clear and Cupping Therapy on Idiopathic Skin Pathology
Type of the Article	Book chapter

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The approach is good But for chapter author need to elaborate each section within 3 pages no clarity Need enhance implementation	
Is the title of the article suitable? (If not please suggest an alternative title)	ok	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is general and needs to focus on the outcome direction and results of this chapter taking into consideration the title of the chapter. Thus, the abstract needs re consideration to conclude: The overall purpose of the chapter you investigated, including the background and the contexts	
Are subsections and structure of the manuscript appropriate?	Need to improve	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The basic design/method of the collected studies. For example, the version of the chapter is systematic or survey ...etc. Major findings or trends found as a result of the review A summary of your interpretations and conclusions The introduction section doesn't include important information that gives the readers the required aspects of the topic. However, the introduction should be summarized and only the important parts must be discussed. The authors presented general information in this section. Besides, this section is a very important part of the book chapter and should have valuable aspects to include: Motivation, challenges, implications need to add Authors need to refer existing works Methodology is not sufficient ( need to improve)	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are too old (2015 ) There is a number of works in skin related issues Update the literature studies to include the recent published articles	

**Review Form2**

Minor REVISION comments <b>Is the language/English quality of the article suitable for scholarly communications?</b>	Need to check language corrections	
<b>Optional/General</b> comments	Authors are advised to add discussion and future enhancement The chapter needs to be revised in English academic writing by a professional. Highlight the gaps and mention how this chapter is going to address any/ some of the gaps. All these aspects (should be) presented in sequence.  a) Highlight your analysis and reflect only the important points for the whole chapter.  The chapter needs more enhancements
