

[Review Form2](#)

Book Name:	Research Perspectives of Microbiology and Biotechnology
Manuscript Number:	Ms_BPR_3652
Title of the Manuscript:	MOLECULAR ASPECTS OF SCLEROTINIA STEM ROT DISEASE MANAGEMENT IN OILSEED CROPS
Type of the Article	Book Chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Review on molecular aspects is useful for research work. Sclerotinia rot is a soil borne disease which is difficult to control by other ways. Hence it is recommendable to go for different molecular methods	
Is the title of the article suitable? (If not please suggest an alternative title)	Suitable title for the paper	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract for this article is comprehensive, no deletion or addition is required	
Are subsections and structure of the manuscript appropriate?	appropriate	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Scientifically robust and technically sound	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Suitable recent references may be added	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Quality of English is ok. But some typographical errors should correct	
Optional/General comments
