

Review Form 2

Book Name:	Innovative Solutions: A Systematic Approach Towards Sustainable Future
Manuscript Number:	Ms_BPR_3724.1
Title of the Manuscript:	Advances in Computational Chemophysics: From Theory to Application
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Advances in Computational Chemophysics, particularly from the perspectives of theory and application, play a crucial role in enhancing our understanding of complex chemical and physical systems. These advancements bridge the gap between theoretical models and real-world applications, offering a wide range of benefits across various scientific fields like Understanding of Molecular Systems, Prediction of Material Properties, Optimizing Chemical Processes, Drug Discovery and Bioengineering etc.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	yes	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Need to discuss about applications in drug discovery, molecular biology, and industrial applications. Including the application of the chemophysics in these fields can fulfil the content of the manuscript.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Sufficient	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
