

Review Form 2

Book Name:	Innovative Solutions: A Systematic Approach Towards Sustainable Future
Manuscript Number:	Ms_BPR_ 3724.5
Title of the Manuscript:	Synthesis and Characterizations of Bismuth oxide Nanoparticles using Precipitation Method
Type of the Article	Book chapter

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Are subsections and structure of the manuscript appropriate?		
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments	It seems to be an interesting topic, but a series of corrections are needed:  1- A scientific abstract should be written and should be in accordance with the general conclusion.  2- Keywords should be selected based on the mesh.  3- The introduction should be a review and the main position should be stated.  Other studies that have conducted similar studies should be included in this study.  4- The consumables used by the manufacturer and their purity should be specified.	The abstract has been revised  Keywords have been modified  Checked  Checked and updated  The manuscript has been updated as per the suggestion.

Review Form 2

	<div>5- The synthesis method should be stated with references.</div> <div>6- The quality of the photos is low, so it should be corrected.</div> <div>7- The ability to recover and reuse should be added.</div> <div>8- The model and country of manufacture of the equipment used should be stated.</div> <div>9- The article should be corrected in terms of writing.</div> <div>10-The reason for using zinc oxide nanoparticles should be specified.</div> <div>11-The photocatalytic process should be explained.</div> <div>12-Isn't it better to investigate the band gap of the nanocomposite?</div> <div>13- Compare with other studies.</div>	<div>The overall quality of the English has been improved by thoroughly reviewing.</div> <div>Checked and updated</div>
