

[Review Form3](#)

Book Name:	Recent Developments in Chemistry and Biochemistry Research
Manuscript Number:	Ms_BPR_3872
Title of the Manuscript:	Phytochemical Analysis and Antimicrobial Screening of <i>Artocarpusaltilis</i> : Guyana Flora Extracts
Type of the Article	Book chapter

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	<ol style="list-style-type: none"> The book chapter contributed an exhaustive study on antimicrobial and phytochemical properties of <i>Artocarpusaltilis</i> leaves. The research data may be relevant for in-depth study of extracts and their applications in antimicrobial treatments. Information given in tables seems to be repetitive. It may be fruitful for the scientific community. 	
Is the title of the article suitable? (If not please suggest an alternative title)	YES	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	YES, It may include most relevant results as well.	
Is the manuscript scientifically correct? Please write here.	YES, A broad historical and botanical background is given for introduction of the plant.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	YES, But all references format is not same.	
Is the language/English quality of the article suitable for scholarly communications?	YES	
Optional/General comments	<ol style="list-style-type: none"> Some of the tables seem to be repetitive. No clarity on test organisms/standard strains preparation/used. Conclusion should be clearly defined for future possibilities (if any).
