Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This research is very interesting and relevant to the strong patriarchal cultural conditions in Arabia. Feminist literature is one of the media for women to voice their interests, change values and norms that have been unfair to women. Resistance through literary works is a subtle and effective way to make social change.	
Is the title of the article suitable? (If not please suggest an alternative title)	The article's title is still not specific enough to the content of the article, wouldn't it be better to change it to Feminist Literature: the path of Arab women's struggle	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract does not explain the method used.	
Is the manuscript scientifically, correct? Please write here.	Methodologically, this article uses primary and secondary data. Primary data was obtained through interviews with the authors, but in the discussion, interview quotes are not clearly stated. Perhaps this can be added in detail. The method section may also need to mention how many authors were interviewed.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references used are quite numerous and relevant.	
Is the language/English quality of the article suitable for scholarly communications?	The language quality is quite good because it is easy to understand and can describe the reality that is being conveyed.	
Optional/General comments	This article is interesting and very easy to understand. This article will be useful for Arab women to get justice
