Book Name:	Achievements and Challenges of Medicine and Medical Science
Manuscript Number:	Ms_BPR_3956
Title of the Manuscript:	Treating Anterior Knee Pain in the Post-Arthroplasty Patient by Isolated Patellar Resurfacing (IPR)
Type of the Article	Book chapter

PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	YES—the manuscript is important for the medical community. <i>After Knee Arthroplasty, the Anterior Knee Pain is frequent in clinical practice. In these cases, the patellar resurfacing and the post-operative physiotherapy are important.</i>	
Is the title of the article suitable? (If not please suggest an alternative title)	YES, the title is OK.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes. <i>If you want, you can add information about the applied Likert scale.</i>	
Is the manuscript scientifically, correct? Please write here.	Yes. <i>If you want, you can add some considerations about the quality of life of patients (Knee Society Score) after the new procedure.</i>	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The manuscript presents 27 references, the newest reference is from 2016. Maybe the author / authors can add some recent references.	
Is the language/English quality of the article suitable for scholarly communications?	The language is OK.	
<u>Optional/General</u> comments	The topic is important. My suggestions to the author / authors: If you want, you can add some figures or/and tables, and a list of abbreviations. Please, enrich the bibliography. In this version of the manuscript all references are up to 2016.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Are there ethical issues in this manuscript?</u>	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
