Is the language/English quality of the article suitable for scholarly communications?	Minor correction	
<u>Optional/General</u> comments	Preventing cancer is a more practical and impactful approach than curing it, given the limited success of treatments despite decades of funding. Understanding cancer's biology underscores the difficulty of reversing disease, making prevention through lifestyle changes and early interventions essential for reducing its burden.	

PART 2:

	<u>Reviewer's comment</u>	<u>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</u>
<u>Are there ethical issues in this manuscript?</u>	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
