Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The mucosal lymphocytic response to H. pylori significantly increases the risk of gastric MALT lymphoma as the vast majority of gastric MALT lymphoma patients are affected with H. pylori. Interestingly; both H. pylori and MALT lymphoma are so linked as if they were almost born simultaneously. The vinegar therapy is applicable in different regimens for eradication of H. pylori among children with hematologic disorders.
