	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Elicitation of Aura migraine by isolated pulmonary arteriovenous fistula through a case study is an important aspect in neurology. Migraine with an aura having a relationship with the lungs is an interesting aspect. Neurology and migraine are interrelated and here the third angle is the lungs here.	
Is the title of the article suitable? (If not please suggest an alternative title)	No, a better title can be 'a case study on elicitation of aura of migraine via arteriovenous fistulous intervention in the lungs'.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract should be rewritten with a detailed research methodology.	
Is the manuscript scientifically correct? Please write here.	No, there is no section on research methodology. There is no table. There is no comparison. No limitation section is mentioned. It is only a case study.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	Recent references can be mentioned. The reference should be in Vancouver style since the study is under clinical domain.	
Is the language/English quality of the article suitable for scholarly communications?	Ok, the English can improve further.	
<b>Optional/General</b> comments	Research methodology section to be written.
