Book Name:	<a href="#">Pharmaceutical Science: New Insights and Developments</a>
Manuscript Number:	Ms_BPR_4074
Title of the Manuscript:	Eco-Friendly Stability Indicating HPLC Method for Estimation of Elbasvir and Grazoprevir by Quality by Design Approach
Type of the Article	Book chapter

**PART 1: Comments**

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)	YES	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Is the manuscript scientifically, correct? Please write here.	Not completely, The manuscript requires substantial revision and lacking important data based on HPLC. The Figures provided are low resolution. One figure attached as a reverse image, that is totally wrong. The HPLC chromatogram provided with manuscript have some ambiguity. The retention time proposed in the manuscript with this mobile phase is usually not possible with C18 (250 x 4.6 mm, 5 micron) column. The Specificity is not properly address. The stability chromatograms are also have poor resolution so can not possible to cross check. The chromatogram should be software labelled with sample id, Detection WL etc. The flow of the manuscript is not appropriate, AQbD, Greenness concept discussion.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	Can be added more reference.	
Is the language/English quality of the article suitable for scholarly communications?	Average	
<u>Optional/General</u> comments
