

Review Form3

Book Name:	Pharmaceutical Science: New Insights and Developments
Manuscript Number:	Ms_BPR_4118
Title of the Manuscript:	Anticonvulsant Profile of the Enantiomers of DL- HEPP
Type of the Article	Book chapter

PART 1: Comments

	Reviewer’s comment	Author’s Feedback(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimumof 3-4 sentences may be required for this part.	This manuscript holds significant importance for the scientific community as it introduces DL-HEPP, a novel compound with promising broad-spectrum anticonvulsant activity, offering hope for patients with drug-resistant epilepsy. The detailed investigation into its pharmacokinetics, safety profile, and enantiomer-specific effects provides valuable insights for the development of more effective and safer antiepileptic therapies.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Is the manuscript scientifically, correct? Please write here.	The manuscript appears to be scientifically correct, as it presents a novel compound, DL-HEPP, with detailed studies on its broad-spectrum anticonvulsant activity, pharmacokinetics, and enantiomer-specific effects. The research methodology, including safety profiling and mechanistic insights, aligns with standard scientific practices.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/Generalcomments
