Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This study explores the involvement of residents in Ondo State, Nigeria, in fostering infrastructure development through community-driven initiatives. It offers important insights into the diverse financial and labor contributions made by households, underscoring the critical role of local engagement in rural development. Additionally, the research highlights the necessity for transparency within community organisations and advocates for external support to address infrastructure gaps in underserved regions.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article is relevant.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	-	
Is the manuscript scientifically, correct? Please write here.	The manuscript is scientifically accurate.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :	It is crucial to emphasise that older articles were selected on the topic instead of more recent research articles. Using the most up-to-date academic studies is vital because they provide the latest insights, reflect current trends, and account for recent advancements in the field. Relying on older literature may overlook newer methodologies, findings, or developments, leading to a potentially outdated understanding of the topic.	
Is the language/English quality of the article suitable for scholarly communications?	The paper is well articulated and easy to understand.	
Optional/General comments	The acronym CBO should be fully spelled out upon its first mention, followed by the abbreviation for subsequent references. This was not adhered to in the abstract. The manuscript has potential for publication in the book, and the author should ensure not reference older articles in future manuscripts.
