Book Name:	Achievements and Challenges of Medicine and Medical Science
Manuscript Number:	Ms_BPR_4184
Title of the Manuscript:	Outcome of Tibio-talo-calcaneal arthrodesis with retrograde intramedullary nail for Charcot arthropathy of foot
Type of the Article	Book Chapter

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Charcot neuropathy is a progressive degeneration of the joints, but it is potentially devastating in its consequences. Surgical treatment has a high rate of complications. The author reports his results from the application of a specific surgical technique (tibiocalcaneal arthrodesis with an intramedullary nail). This surgical technique has been applied in recent years, and this research is important for the results reported by the author.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is it comprehensive	
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	References are sufficient and recent.	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	Author, while mentioning the complications, does not describe their treatment at all, especially in cases with nonunion, and hardware failure. It only mentions one case where amputation was performed as a result of infection. I suggest the author mention the treatment options used.
