Review Form3

Book Name:	An Overview of Literature, Language and Education Research
Manuscript Number:	**Ms_BPR_4200**
Title of the Manuscript:	**Analysis of the Needs of Technology Applications in Differentiated Learning on Geometry Materials at Elementary School Semarang City**
Type of the Article	**BOOK CHAPTER**

PART 1: Comments

	Reviewer's comment	Author's Feedback *(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This research offers valuable insight into how technology can be integrated to meet students' various learning needs, especially in understanding geometry concepts that are often considered difficult. Additionally, the findings of this study may encourage the development of better technology applications, specifically designed to improve student engagement and learning outcomes at the elementary level. Thus, this manuscript has the potential to have a significant impact on educational practices and technological innovation in the field of basic education.	
Is the title of the article suitable? **(If not please suggest an alternative title)**	The title is descriptive but could be more concise and engaging. A suggested alternative title might be: "Enhancing Geometry Learning in Elementary Schools: The Role of Technology in Differentiated Instruction"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract provides a clear overview of the study's purpose, methodology, and key findings. However, it could be more comprehensive with a few enhancements;Briefly mention the challenges faced by students in learning geometry to provide a stronger rationale for the study, emphasize how the findings can influence future educational practices or technology development.	
Is the manuscript scientifically, correct? Please write here.	The manuscript appears to be scientifically sound, with a clear research objective, methodology, and analysis. However, a thorough review of the entire manuscript is essential to ensure complete accuracy	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. **-**	The references appear to be relevant and cover foundational theories and recent studies related to geometry learning and differentiated instruction. However, to ensure that the references are sufficient and up-to-date**.**	
Is the language/English quality of the article suitable for scholarly communications?	Overall, the language is generally appropriate, but improvements are still needed, such as; Clarity and Precision; Consistency; Academic Tone and Grammar and Syntax	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
