

Review Form 3

Book Name:	Medical Science: Trends and Innovations
Manuscript Number:	Ms_BPR_4221
Title of the Manuscript:	Penicillin Allergy Diagnostics by Specific IgE Study
Type of the Article	Book chapter

PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The book chapter addresses the rarity of true IgE mediated penicillin allergies, which can impact antibiotic prescribing practices and also highlights the necessity of specific IgE testing for accurate allergy diagnosis.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, but A suitable title might include terms like Penicillin Allergy specific IgE testing and Diagnostic Accuracy to convey the manuscript core theme effectively.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	YES	
Is the manuscript scientifically, correct? Please write here.	YES	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	YES, need to include methodology references.	
Is the language/English quality of the article suitable for scholarly communications?	YES	
Optional/General comments	The book chapter presents complex data in a structured manner, but some sections could benefit from clearer explanations of specific IgE testing methodologies. Consider using tables and figures to summarize key findings for better visual comprehension. A more comprehensive review of existing literature on penicillin allergies could strengthen the chapters context and relevance.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
