	Reviewer's comment	Author's comment (If agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. Authors must write his/her feedback here)
Is the manuscript important for the scientific community? Please write a few sentences explaining your answer	It good for academic perspective	
Is the title of the article suitable? Do you have any alternative Title in your mind?		
Is the abstract of the article comprehensive? If your answer is No, please provide suggestions	Not comprehensive due to lack of scientific estimation data and practical application of academic and research way for this content not beneficial for academic and research perspectives	
Do you think the English quality of the article is suitable for scholarly communications? If your answer is No, please provide suggestions	As per the manuscript quality of English is not scientifically update	
Please provide your comments regarding the appropriateness of different sections of the manuscript.	Abstract is not upto scientific with respect to title of manuscript. relevant information given manuscript from the book is not complete help to understand the topic also methodology and procedure are not upto mark	
Do you think that the references in the manuscript are proper, recent and sufficient? If you have any suggestions, please write here.	The given manuscript is so informative for both academic and research concern but the manuscript detects lots of scientific, grammatical problems. Scientific analysis and separation methods are not accurate and manuscript language not satisfactory as per given manuscript and some content comes under plagiarism detected in it. So as per my opinion the author revised the manuscript and again sent it for further publication process. It enhance the quality and indexing of journal
